February 2019

# Alvington parish, Gloucestershire

## Designated sites and habitats of value to wildlife

Priority Habitats are outlined in red. Note that some of the ponds and the older hedgerows may also be in a Priority Habitat category, depending on their stage of establishment and use. These are often too small for Natural England to map on the Priority Habitat Inventory, but are known to be locally important.

## Alvington parish map numbered sites and habitats list.

Name	Type	Status	Comments	Map number	Area (hectares)	Source
Barnage Wood	Deciduous woodland	Priority Habitat		1	4.9784	Natural England - Priority Habitats Inventory v2.1 Mar 2019
