

## Building Control Fees 2022/2023

### GENERAL NOTES

#### **THE BUILDING ACT 1984 : THE BUILDING REGULATIONS 2010 (as amended)**

The building owner or agent must make a building regulations application and pay a fee for the construction of new works. All work must comply with the 2010 Building Regulations (as amended).

The person carrying out the building works is to liaise with and meet the requirements of the Local Authority Building Control and give the required notice for certain key stages of works.

The charges set out on the following pages have been set in accordance with the Building (Local Authority Charges) Regulations 2010. The tables below give the charges for various categories of work.

#### **Full Plans and Building Notice Application Charges**

Fees are set on a 'cost recovery' basis and separate charges are given in the tables below for Building Notice and Full Plans Applications. The fees for Building Notice Applications are slightly higher as this type of application will require a greater input of Surveyor time

#### **Full Plans Applications Charges**

For the definition and details of Full Plans Applications please visit the Council's website. The full application fee covering both plan checking and site inspections is payable upon submission of the application.

#### **Building Notice Applications Charges**

A Building Notice Application will not, in the majority of situations, be accepted for new dwellings. New dwellings may attract additional charges depending on what level of design input has been achieved by the applicant.

In accordance with current legislation, the Building Notice application fee is payable upon submission of the application. Please note that an application will not be validated until the fee is paid in full.

#### **Regularisation Applications (Retrospective Works) Charges**

The charge required when depositing an application for regularisation (or reversion) is 100% of the appropriate charge as listed in the following tables excluding VAT, with an additional 50% premium added to it. This type of application is exempt from VAT.

For details of Regularisation Applications please. contact Jennie Hart in Building Control on 01594 812315 or [building.control@fdean.gov.uk](mailto:building.control@fdean.gov.uk).

### **Works to provide access and facilities for disabled persons**

Charges are not payable when the proposed work is to provide access and facilities in an existing dwelling or an extension to store equipment or provide medical treatment for a disabled person. In order to claim exemption, the appropriate evidence as to the relevance of the adaptation for the person's disability must accompany the application.
